World	WorldGBC	Global Version of GBC	http://www.worldgbc.org/

National Sustainable References and Organizations

National (Base loc)	Organization Name	Focus/Mission	Website
Arizona	Global Institute for Sustainability	The Institute conducts research, education, and problem-solving related to sustainability, with a special focus on urban environments. More than half of the world's population lives in cities; global sustainability cannot be achieved without making cities sustainable. The Institute initiates and nurtures work on issues of sustainability across many departments on the four campuses of ASU and collaborates with other academic institutions, governments, businesses and industries, and community groups locally, nationally and globally.	http://sustainability.asu.edu/giosmain/people/index.htm
Austin, Texas	Austin Energy Green Building (Energy)	Austin Energy Green Building is the nation's most successful utility-sponsored sustainable building program	http://www.ci.austin.tx.us/greenbuilder/
National	SustainableBusiness.com	Provide global news and networking services to help green business grow. Offers visitors a unique lens on the field as a whole, covering all sectors that impact sustainability: renewable energy- efficiency, green building, green investing and organics	www.sustainablebusiness.com

New Jersey	CleanTECH	CleanTECH is new technology and related business models offering competitive returns for investors and customers while providing solutions to global challenges. Where greentech, or envirotech, represents the highly regulatory driven, "end-of-pipe" technology of the past with limited opportunity for attractive returns, cleantech is driven by market economics therefore offering greater financial upside and sustainability. <ul style="list-style-type: none"> * Energy Storage * Energy Infrastructure * Energy Efficiency * Transportation * Water and Wastewater * Air and Environment * Materials * Manufacturing/Industrial * Agriculture * Recycling and Waste * Energy Generation 	http://www.cleantech.com/
New York	NYCEDC	Oversee transportation and infrastructure projects that make transit within the tri-state region more efficient. To improve the distribution of goods within and outside the five boroughs, NYCEDC manages the redevelopment of the city's rail freight lines, food markets and maritime and aviation facilities.	www.http://www.nycedc.com/Web
Pittsburgh, Penn.	Building Materials Reuse Association	The BMRA is a non-profit educational organization whose mission is to facilitate building deconstruction and the reuse/recycling of recovered building materials.	http://www.buildingreuse.org
Washington, D.C.	USGBC	To transform the way buildings and communities are designed, built and operated, enabling an environmentally and socially responsible, healthy and prosperous environment that improves the quality of life	
Washington, D.C.	ACORE	Non-profit organization based in Washington, D.C. with paying members from every sector of the renewable energy industries and their trade associations, including wind, solar, geothermal, biomass and biofuels, hydropower tidal/current energy and waste energy. The scope of ACORE's membership also spans – among others – financial institutions, government leaders, educators, end users, professional service providers and allied non-profit groups.	http://www.acore.org/

Sustainable References and Organizations in California

California	Organization Name	Focus/Mission	Website
Sebastopol, CA	Post Carbon Institute	Implement proactive strategies to adapt to an energy-constrained world	http://www.postcarbon.org/
San Francisco	Green Key Real Estate	Green Key Real Estate is the first, and only, green real estate brokerage in San Francisco that is working toward solving environmental and social problems.	http://www.greenkeyrealestate.com/
Sacramento	California Green Builder	The California Green Builder program (CGB) is the effective and cost-effective green building program for production builders and California homebuyers. Created by homebuilders for homebuilders, the voluntary program meets the needs of builders, buyers, and California's cities and counties alike.	http://www.cagreenbuilder.org/
San Francisco	Collaborative of High Performance Schools	To facilitate the design of high-performance school environments that are energy and resource-efficient, healthy, comfortable, well-lit, and contain the amenities needed for a quality education	http://www.chps.net/index.htm
Southern Cal (LA) and New York	Charles Lockwood	Charles Lockwood is a green real estate authority and consultant based in Southern California and New York City. He advises corporations, building owners, and developers on green real estate issues, including the newest trends, challenges, and opportunities. He also leads green real estate workshops and presentations for corporations, real estate companies and universities.	http://www.charleslockwood.com/
