STUDENT CERTIFICATION

All of the information on this form is true and complete to the best of my knowledge.

Student’s Signature _____

Date _____

Step 2 – Application Process for All Borrowers

Applying for Your Loan

All student borrowers will have a credit review completed by their lender. If your application is denied you may be able to use a co-signer.

Go to the Loan Portal online at <https://www.edfund.org/wps/portal/loanportal>. Make the selections to “view lender options” to compare private loan programs.

- Review the lenders listed by clicking on their names. After selecting a lender, click on the “Apply” link. **Apply with only one lender.**

Note: If you have previously borrowed and do not see your prior lender listed, contact your lender directly to apply. Your lender will need to provide a Certification Request to the USD Office of Financial Aid.

- The lender will instruct you how to apply for your private, non-federal loan and will complete an instant credit check, regardless of whether you have previously borrowed.
- Request a loan amount and apply for the full amount needed for the entire academic year. (Funds are disbursed equally per semester.)
- The lender will forward your application to the USD Office of Financial Aid for certification. You will be notified when funds are available for disbursement, by the lender.

You’ve Finished!

Only complete this process once. If you have any questions, please contact the USD the Office of Financial Aid or the One Stop Student Center.
