Indicate the EXACT number of units you plan to take at USD Summer 2007: _____

STUDENT CERTIFICATION**All of the information on this form is true and complete to the best of my knowledge.**_____
Student's Signature_____
Date**Step 2 – Application Process for
All Borrowers****Applying for Your Loan**

All student borrowers will have a credit review completed by their lender. If your application is denied you may be able to use a co-signer.

Go to the Loan Portal online at <https://www.edfund.org/wps/portal/loanportal>. Make the selections to "view lender options" to compare private loan programs.

- If you have previously borrowed a private, non-federal loan, select your prior lender from the lender list and click "Apply". If you have not previously borrowed a private loan, review the lenders listed by clicking on their names. After selecting a lender, click on the "Apply" link. **Apply with only one lender.**

Note: If you have previously borrowed and do not see your prior lender listed, contact your lender directly to apply. Your lender will need to provide a Certification Request to the USD Office of Financial Aid.

- The lender will instruct you how to apply for your private, non-federal loan and will complete an instant credit check, regardless of whether you have previously borrowed.
- Request a loan amount and apply for the full amount needed for the entire academic year. (Funds are disbursed equally per semester.)
- The lender will forward your application to the USD Office of Financial Aid for certification. You will be notified when funds are available for disbursement.

You've Finished!

Only complete this process once. If you have any questions, please contact the USD Office of Financial Aid.
