Community Standards
Recommendations voted on at IFC/PHC Meeting
On 3/25/2010

1. Centralized Bus pickup (Maher, UC) for social events.
2. Chapters have the ability to choose between a rotating bus pickup and a centralized bus pickup.
3. Mandatory bus pickup and drop off on campus for members under the age of 21 who also live on campus.
4. Bus drop off at many locations on the beach instead of just one.
5. All members must take the same bus back that they came on.
6. Chapters must have somebody on their risk management team check in people at each bus in a more strict way.
7. Bidnight celebrations cannot be on the same night as bid distribution.
8. Chapters must have new member education programs on drinking before their first event, organized on a per chapter basis.

Chapter Presidents:
Please have your chapter discuss this document – both its process of creation and the content at chapter meeting this week. As these are Community Standards, it is important that your chapter have an opportunity to see and discuss what you have created on their behalf. Your chapter will need to vote to adopt these Community Standards for immediate implementation.

At our joint IFC/Panhellenic meeting on Tuesday, chapters will be reporting the vote of their organization back to the Councils. I anticipate that chapters voting to adopt the Community Standards you created will have the moratorium lifted.

Please let me know if you have any questions.
