

5/6/08

Innovative Learning Space Design Committee Agenda

- Welcome by Julie Sullivan and Chris Wessells
- Committee charge and objectives
- New Direction and redefining learning space design at USD –while showing a slide
 - Our purpose and intention is to bring in new innovative technology to campus as technology needs over the years have changed. (**Shahra**)
 - We look at this committee to advise us with the critical needs of each of the area and to assess the request that we receive from colleges and faculty and try to be equitable—now with formation of this committee we will bring in the request to you to help us determine and prioritize project/planning. (ex; school of nursing). (**Shahra**)
 - We will be looking at the faculty representative of this committee to bring us feedback and input of faculty in their colleges...

- Establishing USD classroom guideline/Standard
 - Review of current one compiled
- Representation from across the campus- faculty and students' representation
- Planning and assessment of flexible technology enhanced classroom- learning studio
 - Prototype/ Learning Studio
- Building collaborative learning space with an emphasis on digital technologies
- Review of requests and establishing procedures
