Office of the President

Welcome new colleagues, returning faculty, and everybody in the academic community, as we begin the 2000-2001 academic year. Whatever your views may be on when the millennium begins, this year is definitely in the 21st century and we start a new page in the history of USD. I hope this page will be filled with the engaging text of our disciplines, the footnotes of scholarly work, and colorful illustrations of campus life. May this be the year that you teach the unforgettable student, make the discovery that clarifies your research, write the thoughts that influence your readers, and enjoy deeply the many rewards of the academic life. The records of this year's work will be read on line and on campus, and your contributions will shape our future. Best wishes to all for a year of personal and professional achievement and growth in 2000-2001.
