Charles M. A. Clark, PhD, St. John's University
David T. Abalos, PhD, Seton Hall University
Orlando Espin, ThD, University of San Diego

Transcending Borders will challenge participants to transcend the perceived boundaries of Catholic Social Thought in our work. Faculty, administrators, and service coordinators will present best practices integrating CST principles in the classroom, in research, and in service. Followed by roundtables, participants will develop course content, research agendas, and service opportunities.

Presented by the University of San Diego – the only U.S. Catholic university on the 1,969 mile border with Mexico – the conference will include an unforgettable visit to the border fence, reflection on the experience, and a Signs of the Times Dialogue on immigration through the lens of Catholic Social Thought.
