WASC Review Committee  
Accrediting Commission for Senior Colleges and Universities  
Western Association of Schools and Colleges  
Alameda, California

Dear WASC Review Committee:

The University of San Diego submits this statement of Institutional Stipulation as an appendix to our Institutional Proposal. As stated in the proposal, the University fully supports the two Core Commitments, the first to Institutional Capacity during its first review, and the second to Educational Effectiveness, during its second review. The University will seriously engage the full review process, and will report all data accurately and completely so that the Commission will receive a fair presentation of our institution.

The University of San Diego has published and made publicly available policies in force as stipulated by the Commission. These policies will be available for review on request throughout the period of accreditation. The University will also abide by the procedures adopted by the Commission to meet the United States Department of Education (USDE) procedural requirements, especially those policies and records of complaints and appeals.

The University will submit all regularly required data, and any data specifically requested by the Commission during all phases of the accreditation process. It has reviewed its off-campus programs and degree programs offered by distance learning to ensure that they have been approved by the WASC Substantive Change process.

Sincerely,

Mary E. Lyons, Ph.D.  
President
