

Light Window on USD Web Site

Upload Your Video

Using the streaming server at <http://streamer.sandiego.edu>, upload your QuickTime, Windows Media or Flash file. If needed, change the default resolution values so that they match the size (i.e. width and height) of your video file.

	If unsure of these settings, please leave default values.
Width:	<input type="text" value="480"/>
Height:	<input type="text" value="360"/>

Add the Scripts

Put these script files at the top of your page:

```
<link rel="stylesheet" href="/css/lightwindow.css" type="text/css" media="screen" />
<script type="text/javascript" src="/scripts/lightwindow/prototype.js"></script>
<script type="text/javascript" src="/scripts/lightwindow/effects.js"></script>
<script type="text/javascript" src="/scripts/lightwindow/lightwindow.js"></script>
```

Add the Link Code

On the link to the video file, use class="lightwindow" so:

```
<a href="http://streamer.sandiego.edu/Streamer/StreamPlayer.aspx?Id=50a5beb1WU3"
class="lightwindow">Linked Text</a>
```

If your video is Flash (.flv), make sure to add &bLW=1 at the end of the URL.

More Attributes to Add

title="Some Title". Will appear at the top of the box.

author="Author Name". Will appear at the bottom of the box.

caption="Caption text". Will appear under the bottom of the box.

Size: For more options, you can use

param="paramname=paramvalue,paramname2=paramvalue2". You will, for example, probably have to set the width and height for streaming video.

lightwindow_width: Width of window

lightwindow_height: Height of window

lightwindow_top: Set as an Integer to be spaced from the Top

lightwindow_left: Set as an Integer to be spaced from the Left

lightwindow_type: Specify the type the window should be treated as i.e. page, external, image, media, inline

lightwindow_loading_animation: Set to false to opt to not fade out the Loading Cover

```
<a href="http://images.apple.com/movies/newline/the_number_23/the_number_23-
t1r1_h.640.mov"
  class="lightwindow"
  title="The Number 23"
  caption="Jim Carry goes nuts after reading some book or other."
  author="New Line Cinema"
  params="lightwindow_width=640,lightwindow_height=320">
