The public is invited and encouraged to attend and participate in all Associated Students Senate Meetings. All meetings are open to the public, and are accessible to those with disabilities. Public participation in all discussions is welcomed, and the public is invited to address the Student Senate on non-Agenda items during the Announcements and Hearing of the Public portion of the Agenda.

1. Call to Order:
Agenda: no amendments to the agenda were made.

Torero Spotlight presented by Pete Greene: Pearl Lai is the Torero of the Week

Approval of the Agenda: Tyler Warren has moved to include the finance bylaws and the parking issue in the new business section of the meeting. A motion was raised and all senators present approved.

Another motion was raised to add additional business to the agenda.
   A. Approval of the agenda approved by all present members.

2. Approval of the past minutes: Motion made by Daniel Geloso to approve, and all members present approved.

3. Presentation of the Carpool App Initiative: This app is trying to capitalize on the fact that we need to try to reduce our carbon emissions here and that we need to try to prevent such problematic issues with parking on campus. The two presenters are working with Qualcomm to help get this app up and running, and is looking for USD AS’ support in marketing this app and to keep it going since Charlotte and Brooke will not be on campus next year.
   A. Daniel Geloso asked about what the timeline for getting this app up and running will be. This app is going to be up and running as soon as it can be.
   B. Are there any liabilities with using this app in case there are any issues? It is up to the students who are using the app to select who they want to carpool with since they are given options.
   C. Kristin Mitchell asked what kind of support Charlotte and Brooke are looking for with this app. Brooks responded by saying that this is primarily a marketing issue since AS can obtain good results on campus.
   D. Shalin mentioned that this is not an official vote at the moment, and asked how senators feel about the app proposal, which Jack Campbell answered he is very supportive.
   E. Katie Coutermarsh thanked the two women for their hard work with this.
   F. A motion was made by Tyler Warren to move this issue to the academics committee. This motion was revoked.
   G. A motion was made by Jack Campbell to move this issue to Exec. to make sure that this is included in the transition.

3. Old Business:
   A. Reviewing over the Title IX Resolution. Katie Coutermarsh, Dylan Jones and Shalin Shah met with Dr. Avery recently, and we have obtained a response from the administration.

Associated Students Senate, April 14th, 2016
B. Shalin read the response to the senate. Comments from the Senate included:
Katie discussed the meeting and voiced that the discussion with the administration was not about the Title IX program itself, but over the issues with enforcing the program. The organization is trying to be conscious with the issues of socioeconomic factors that student may face.
Dr. Schusler also spoke today to voice that the intent was to have Associated Students included, and apologized for any confusion. She looks forward to working with Senate in the future.
C. Shalin mentioned that now is the time for Senate to take a stance on the resolution. Jack Campbell mentioned that it might be necessary for Associated Students to support methods such as holds to enforce 100 percent compliance among all students.
D. Katie voiced that this is not an executive team decision, and wants to know if the Senate can move forward with this issue since we now have access to all of the information. This training will be taking place every year.
E. Shalin is looking for an official statement on where Senate stands at this moment, and Katie voiced that while not all of our constituents might not be happy, we need to try to get a stance stated.
F. Alec Palmer stated that supporting a hold will create backlash against our constituents.
G. Daniel Priore voiced that it might be best to hold off on using a method such as hold, and that this should be used if the issue worsens.
H. Jordan Rodriguez voiced concerns as well, and Jack Campbell discussed whether or not this 3.7 percent of the student body that has not completed the training really matters.
I. There is no longer a quorum to vote on this issue, and we are very split on the issue.
J. No additional votes can take place, so the senate was adjourned.

Senate adjourned at 1:08PM.
