The event will be happening on the Mission Bay, where students spend time together out on the beach or use the kayaks and paddle boards. We will be providing a light lunch and beach snack for the members. The objective of this event, and our club, is to provide USD's foreign exchange students with a USD domestic student who serves as a resource during this transition to San Diego. Essentially, this person is there to help them do things such as figure out office hours and other school related questions, practice English, learn some of the San Diegan culture, and build global connections. The goal of the event is not primarily social in nature but rather to bring about cultural awareness, ease the hardships of moving to another country, and promote connections between people from different backgrounds.
