GRADUATE BUSINESS CAREER SERVICES
Prepare and Connect

Graduate Business Career Services delivers individualized services and resources to students, alumni, faculty and employers. Our team prepares students for the job market and connects them with industry.

CAREER COACHING
Students receive one-on-one coaching and career services to address their individual situations. Graduate Business Career Services professionals assist each student in creating employer-ready resumes, refining interviewing skills, and developing job search strategies. Individualized career action plans lead students from career exploration through an internship and into full-time opportunities.

MENTOR PROGRAM
Career Services matches students with alumni and professionals in the business community to gain industry insights and build their networks. Participating students meet one-on-one with their mentors for individual advising and relationship building opportunities.

RECRUITING & NETWORKING EVENTS
Industry expert roundtables, guest speakers, company information sessions, and career fairs allow students to develop professional skills, gain industry insights, and create lasting connections. In addition to on-campus events, students also visit companies in San Diego and across the United States on corporate treks, further developing their exposure to employers from a wide variety of industries.

CAREER & PROFESSIONAL DEVELOPMENT
Structured courses, workshops, and webinars guide students through graduate-level career development topics. Working directly with career services staff as well as alumni and industry professionals, students develop a strategic and tactical framework allowing them to master the skills to secure an internship or full-time job.

ONLINE RESOURCES
Handshake, USD’s job database, is a robust resource that includes thousands of internship and job postings, information on upcoming networking events and career fairs, and access to additional databases and resources including the Career Bridge, Vault, InterviewStream, Going Global, EFMD Global, and MBA-Exchange.
