University of San Diego’s COVID-19
BREAKROOM GUIDELINES

- Please practice personal responsibility.
- You are responsible for cleaning, removing or properly disposing of your items.
- Wash your hands before and after eating with soap and water for at least 20 seconds.
- Wear a face covering.

- When in the break room, maintain physical distancing by standing at least 6 feet away from others.
- Use a disinfectant solution (Lysol or similar) to wipe surfaces and handles before and after use.
- Do not provide community breakroom supplies (i.e. dishes, utensils and drinkware).
- Do not share community condiments (i.e. bottles, shakers, etc.)

- If you bring food to campus, make it self-sufficient, meaning it does not require anything other than what you brought (i.e. bring your own plate, utensils, etc.).
- If your food needs to be heated, bring it in a microwavable container. Do not transfer food to a plate that has to be washed and might be used by someone else.
- Reusable supplies are preferred. If you choose disposable options, consider items that are biodegradable or made from 100% recycled materials.
- Do not come to work if you are sick or have a temperature of 100-degrees F or higher.
