

President James T. Harris III, D. Ed.  
Provost Andrew T. Allen, Ph.D.

Tuesday, November 22, 2016

Dear President Harris and Provost Allen:

We, the undersigned faculty, staff, students, alumni, and members of the broader University of San Diego campus community, write in response to your letter of Monday, November 21, and in the wake of the recent United States Presidential Election. We commend your reaffirmation of USD's core values, and stand with you in your enduring commitment to ensuring that the USD campus remains a diverse and inclusive environment dedicated to the safety and dignity of all its members.

Such an affirmation is especially valuable, given that President-elect Donald J. Trump campaigned on a platform openly hostile to, among others: immigrants, Latinas/os, Muslims, Jews, the LGBTQ community, the Black community, the disabled community, and women. In the days following his election, according to the Southern Poverty Law Center, the United States has seen a spike in hate crimes, bolstered by a resurgence of an "alt-right" movement recently empowered by Mr. Trump's rhetoric and political appointments. This gives us real and pressing concern about the safety of our community members now at risk of being targeted by racism, sexism, homophobia, xenophobia and other forms of bigotry. Additionally, Mr. Trump has advocated policies that will adversely affect both immigrants and current immigration policy in the United States. He has indicated repeatedly—even in the days after his election—that he has plans for mass deportations of undocumented individuals currently in the country, and the registering of Muslim citizens in a national database.

We, the undersigned, have a belief in, and remain committed to, the University of San Diego's stated mission of "creating a diverse and inclusive community and preparing leaders who are dedicated to ethical conduct and compassionate service." Further, we believe that our University is compelled by our Catholic mission to stand in the face of injustice wherever it may be found, and affirm that a Catholic institution must do everything in its power to advance human dignity, particularly for the vulnerable. We stand with Archbishop Jose H. Gomez, Vice President of the United States Conference of Catholic Bishops, who addressed mass deportation at an interfaith prayer service at the Roman Catholic Cathedral in Los Angeles on Thursday, November 10. "This should not be happening in America," Archbishop Gomez said. "We are not this kind of people. We are better than this." We further recognize that these values are consonant with the principles of equal opportunity and equal protection of all people, as guaranteed by the Constitution of the United States, and the Civil Rights Act of 1964.

It is with these values in mind that we commend your reaffirmation of the rights of all members of our university community, particularly our immigrant students, and those who are undocumented or currently benefiting from President Barack Obama's executive order Deferred Action for Childhood Arrivals (DACA). This reaffirmation is particularly valuable, given that President-elect Trump has proposed policy changes that are likely to impact USD students who may, or may not, be currently benefiting from DACA, an order which provides protections for the individual against deportation, and ensures the individual's right to, among other things, seek employment, obtain a driver's license, purchase insurance, open a bank account, and in other ways establish and pursue a productive life in this country. If DACA were to be terminated, the impact on many of our students could quite possibly be deleterious to the point of forcing them to withdraw from campus life.

USD's role as a Catholic institution, its dedication to both the Catholic intellectual tradition and to social justice more broadly, and its stated mission make clear the pressing need to ensure that USD remains an inclusive and welcoming space for all of its students and community members, no matter their immigration status, origins, creed, orientation, or identity. With these values in our heart, and in the spirit of your recent campus message, we urge you to declare the University of San Diego a sanctuary campus for students, faculty, staff, and community members now facing, among other things: the threat of deportation under President-elect Donald J. Trump's policy proposals, and the specter of hate speech and bigoted violence in our campus community.

To that end, and in the spirit of continued collaboration, we support, President Harris, your reaffirmation of USD's "longstanding practice that a student's immigration status is considered as part of a student's educational record and protected by the Family Educational Rights and Privacy Act." We further endorse your call for the creation of a Presidential Task Force. And lastly, we ask that you uphold USD's core values of "dignity and the fullest development of the whole person" by taking the following specific actions:

- Reaffirm the United States Conference of Catholic Bishops' Catholic Social Teaching on Immigration (<http://www.usccb.org/issues-and-action/human-life-and-dignity/immigration/>) as well as Archbishop Gomez's recent statement that "Tonight we promise our brothers and sisters who are undocumented—we will never leave you alone." (<http://media.la-archdiocese.org/archbishop-gomez-delivers-homily-on-hope-and-unity-at-prayer-service-uniting-local-people-of-all-faiths/>)
- Reaffirm USD's current practice of non-cooperation with Immigration and Customs Enforcement (ICE) or other enforcement agencies unless compelled to do so by a court order or exigent legal circumstances
- Reaffirm that University's Department of Public Safety, comprised of non-sworn peace officers, does not currently, and will not, engage in or support immigration

enforcement unless compelled to do so by a court order or exigent legal circumstances

- Reaffirm the University's practice of not verifying a student's immigration status
- Join the growing network of other Catholic institutions and other institutions of higher education proclaiming themselves as sanctuary campuses
- Provide and expand existing legal resources for undocumented students, employees and members of our community
- Provide and expand existing counseling resources for undocumented students, employees and members of our community
- Reaffirm the University's intolerance for hate and discrimination of historically underrepresented and marginalized groups (women, Muslim, Jewish, immigrant, LGBTQ, and so on) that are potentially at risk
- Join us, and support our work, as we educate and take concrete actions to sustain a campus community and culture that respects the dignity of each individual, even as these ideals come under threat by the incoming administration

Sincerely,

Bradley Melekian, '02
