

Tuition Remission/Exchange and Undergraduate Study Abroad

Short-Term Faculty Led Programs (Intersession/Summer)

- *Tuition Remission*
 - All USD faculty-led programs are eligible for this benefit.
 - If a student attends a non-USD short-term program abroad, they are NOT eligible to use tuition remission.
 - The full tuition amount of the program is covered by this benefit.
 - Students are still responsible for paying all application/commitment/program fees billed by USD for their participation.
- *Tuition Exchange*
 - Tuition exchange students are not eligible to use this benefit on USD faculty-led short-term programs.
 - The tuition amount is NOT eligible for this benefit.
 - Students are responsible for ALL fees associated with their short-term study abroad course including tuition, application/commitment/programs fees.

Semester Programs (Fall/Spring)

- Only the following programs are eligible:
 - Semester Exchanges (any semester program listed as “exchange”)
 - Madrid, Spain (USD Madrid Program)
 - Cork, Ireland (University College Cork)
 - Rome, Italy (John Cabot University)
- Students are only able to use tuition remission and tuition exchange on the tuition portion of their semester study abroad program.
 - Application/programs fee are not covered and students are still responsible for paying these.
- If a student attends a semester program that is not eligible for tuition remission/exchange (i.e. a program not listed above):
 - Students will receive tuition remission/exchange in the amount of the difference between USD’s tuition and the international institution’s tuition. (In this case students are responsible for paying the full amount of the provider’s tuition rate.)
 - *Example:* If USD’s tuition is \$23,550 and the international institution’s tuition is \$15,000 then the amount of tuition remission is \$8,550 and the student pays \$15,000 in tuition.
 - Students may contact the International Center directly for this calculation.
