Smart Classroom Quick Start Guide
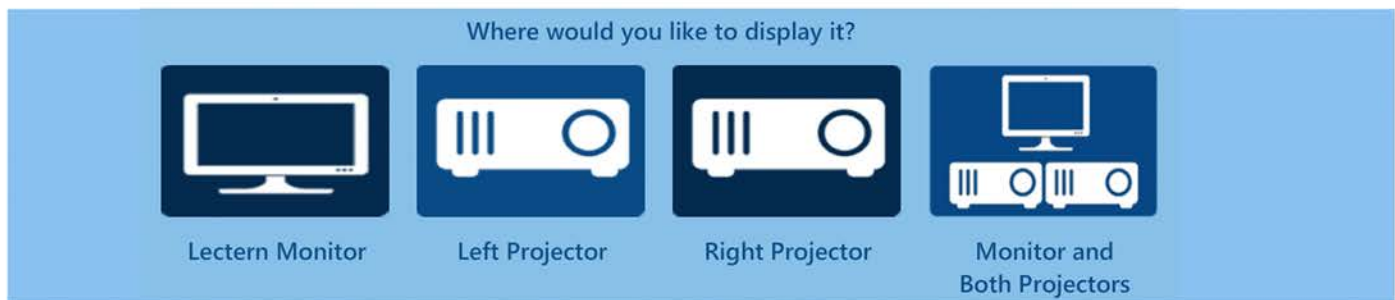

STEP 1

Touch panel to wake up, then touch the source you would like to use.

What would you like to display?

Room PC	Multi-Format Laptop	VGA Laptop	Blu-Ray	Doc Camera	Wireless Display

STEP 2

Select where you would like to display.. The screen will now lower and the projector will turn on. This system is able to display different sources on each projector.
To do this return to the source page, select a source and then a projector.

Where would you like to display it?

Lectern Monitor	Left Projector	Right Projector	Monitor and Both Projectors

TIPS

PowerPoint Presenter View - If you wold like to use presenter mode in PowerPoint first select Room PC (step 1) then Monitor adn Both Projectors (step 2). Next place the PCdisplay mode into "extended" using shortcut "Windows and P". Now you can open PowerPoint and start your presentation in presenter mode.

Volume - To adjust volume use Vol Dn and Vol Up buttons.

Audio/Video Mute (Projector Black Out) - You can use the audio and A-V buttons to mute without turning the system off. If you are not seeing or hearing what you expect make sure the system is not muted. If the buttons are **RED** then the system is muted, touch them to unmute.

Home	Audio	A-V	Vol Dn	Volume	Vol Up	Power

NEED HELP

Touch the "Help Desk" button in the upper right hand corner to speak with an on campus ITS technician. If your issue is not resolvable over the phone a technician can assist in person. If you would like to schedule training please email Instructional Media Services.
