**Note:** This is the tentative breakdown of the classrooms in each of the academic buildings and our schedule for the upgrade. Please scroll to the right to see all classes. Our schedule and selections are tentative at this point to help us with our planning.

To work thru the speedy process we need to focus on one building at a time while doing some prep work on the next building and staggering our project. There will be times that we will be working on concurrently in several buildings in order to complete our work.

If you have any comments or questions, or concerns, please contact Shafrha (meshahy@sandiego.edu).

**Note:** We are working on some other events and conference room spaces to see how we may add the dual camera capability into those spaces. In the event, we need to use other large spaces, conference facilities (ie: KIPJ or in UC Forums). We're working on figuring the part - phase II.
