## **Mac Recording**

## **Download the software:**

Direct Download Link: <a href="http://www.nch.com.au/wavepad/wavepadmaci.zip">http://www.nch.com.au/wavepad/wavepadmaci.zip</a> Link to Website: <a href="http://www.nch.com.au/wavepad/">http://www.nch.com.au/wavepad/wavepadmaci.zip</a>

Preparation	Things you will need:
	<ol> <li>A quiet area to record</li> <li>An Apple computer running OSX</li> <li>A Microphone: Microphones can be located on a webcam, the built-in mic on your notebook, or as part of a headset. <u>Preferred</u>: A USB noise-cancelling headset</li> </ol>
	Download, Install and Run the
Installation	<ul> <li>Download, Install and Kun the program</li> <li>1. After downloading the software using the link above, the files should decompress automatically and the WavePad installation window should open.</li> <li>*Note: If only the zip file is downloaded, follow steps <u>a &amp; b</u> below</li> <li>a. *Double-click on the </li> <li>(WavePad_i.dmg)</li> <li>b. *Double-click on the </li> <li>(WavePad_i.dmg)</li> <li>b. *Double-click on the </li> <li>(WavePad_i.dmg)</li> <li>b. *Double-click on the </li> <li>(WavePad_i.dmg)</li> <li>con to open the </li> <li>(WavePad_i.dmg)</li> <li>con to open the </li> <li>(WavePad_i.dmg)</li> <li>(WavePad_i.dmg)</li> <li>(WavePad_i.dmg)</li> <li>(WavePad_i.dmg)</li> <li>(Within the WavePad installation window, click on and drag the WavePad icon over to the provided Applications shortcut folder and drop the icon. This</li> </ul>
	<ul> <li>action begins the installation procedure.</li> <li>Open the Applications Folder and click on WavePad to start the program.</li> <li>Within the WavePad installation window, click on and drag the WavePad icon over to the provided Applications shortcut folder and drop the icon. This action begins the installation procedure.</li> <li>Open the Applications Folder and click on WavePad to start the program.</li> </ul>

## Begin the Recording Process Interface Screen - 4 Parts:

**WavePad** File Edit Effects Control Tools Bookmark Window Help Picture 1: Menu at Top

Picture 4: Record and Playback Controls

- 1. To begin recording, click on the Record button
- **2.** A Sample Rate screen will appear. Accept the defaults by clicking **OK**.

Sample Rate:	44100		
Channels:	( Mono (Single)		
	🔿 Stereo (Dual)		
0 0	Cancel OK		

3. Two windows will open: An **Untitled** Screen where the recording will appear and a **Record Control** Screen.

	Save A	udio File As
