

# SUPPORT THE NAME AND GENDER MARKER CHANGE CLINIC

## What do we do?

*We help transgender, non-binary, and gender-nonconforming individuals petition the court to change their name and/or gender-marker so they can have official state and federal documents that reflect their correct name and/or marker. The Clinic completes all the necessary legal paperwork as well as advises on the next steps for filing the petition and changing identity documents*

TO DONATE

## Your help matters!

*We are a free service operated by volunteer law students and licensed attorneys. Moreover, the process is time-consuming and costly for our participants. Your donation will directly help participants with the costs of filing with the court, printing court forms, and obtaining certified court copies. Your donation will also contribute to the internal management of the Clinic and assist us in providing our services and outreach to the California LGBTQIA+ community.*
