OTHER USD CONTRIBUTIONS

Emergency Nurse Practitioner Program Development
In addition to my educator/researcher role, I have helped to establish what I hope to be a stellar ENP concentration at the SON this summer. This has been a vision of mine for several years and hopefully, a part of my USD legacy. I have:

- assisted with the ENP proposal recently approved by the California Board of Registered Nursing (with only one minor curriculum change)
- created the week-by-week ENP Course Schedule & Syllabus
- notified all summer instructors/guest lecturers for Summer 2018
- prepared a one-day ultrasound course within the curriculum this summer *(for free)* utilizing my Sonosite contacts.
- secured several clinical sites for ENP students to complete their clinicals in EDs, urgent cares, fast tracks, and correctional facilities
- organized all equipment and supplies for this new program
