

Higher Education Leadership, MA

Assessment Overview & Results Summary

College/School:	School of Leadership and Education Sciences
Measures Used:	Students in this program conduct an Action Research project.
Process for Interpretation of Evidence:	They work with their course instructor to develop their AR proposal, conduct the research under the supervision of an instructor and then present their final Action Research project at a SOLES research conference. Several faculty assess their presentation. Some students needed extra time due to the challenges presented by covid. They were given additional time and students appreciated the flexibility.
How Findings are Used:	✓ Changes to curriculum/pedagogy
Results Summary and Continuous Improvement Actions for AY 2020-2021:	In reviewing some of the comments from our exit and alumni surveys we noted that the following courses would better support our students. We have begun curriculum development for the following : (1) a course on Assessment in HE (which was completed and offered in the fall), (2) a course in finances in HE, (under development) and (3) DEI Enrollment (developed) . We hope to launch these three classes as a certificate beginning in the fall.
