### Outcome Name | Outcome
--- | ---
PLO1: Clinical Expertise | Demonstrate advanced clinical expertise based on nursing and related disciplines.
PLO2: Integration | Provide leadership in integrating research into practice.
PLO3: Evidence-Based Practice | Utilize research-based evidence as a foundation for practice.
PLO4: Information Technology | Apply information technology to enhance nursing education, practice, and research.
PLO5: Collaboration | Engage in multi-sectoral collaboration to improve health care delivery, assuming responsibility for the delegation and oversight of care delivery by other staff as deemed appropriate.
PLO6: Leadership | Provide leadership in formulating and implementing policy that contributes to ongoing improvement of health care delivery.
PLO7: Ethical Perspective | Practice from an ethical and legal perspective that acknowledges conflicting values and rights as they affect health care decisions.
PLO8: Advanced Clinical Roles | Assume and develop advanced clinical roles to meet societal needs in a rapidly changing national and global health care arena.
PLO9: Cultural Sensitivity | Provide innovative care that promotes health and quality of life for culturally diverse individuals, families and populations.
PLO10: Social Change | Analyze emerging issues confronting nurses and society as a basis for enacting social change in ways that foster health.

### Assessment Measures

Student learning in the Executive Nurse Leader program is assessed using direct measures such as: presentations, course/program examinations, research papers, supervisor observations, or capstone assignments/projects. Collectively these measures allow us to determine the level and quality of education attained by our students.
