Introducing the Class of 2023

- Their primary use of a phone has always been to take pictures
- The Tech Big Four – Apple, Facebook, Amazon and Google – are to them what the Big Three automakers were to their grandparents
- Nearly half of their generation is composed of people of color
- Like Pearl Harbor for their grandparents, and the Kennedy assassination for their parents, 9/11 is a historical event.
- They may well not have a younger sibling, as the birth rate in the U.S. has been dropping since they were in grammar school
- There have always been “smartwatches.”
- Face recognition technology has always been used at public events
- Only two-thirds of this generation identify as exclusively heterosexual.

Wellness Concerns

- Wellness-related concerns that impede student academic success derive primarily from stress and other psychological and psychosocial related sources (ACHA-NCHA II 2018)
- 52.5% of USD students (41% male, 57% female) reported being diagnosed or treated by a professional within the last 12 months (2018 USD NCHA)
The 2018 ACHA data indicated that **31% of USD students reported having been diagnosed and/or treated by a professional for a mental health condition** within the last 12 months. **This is a 6% increase from 2016.**

Substance Use

Alcohol:

• 33.7% of USD students reported consuming ≥5 drinks last time partied/socialized (35.8% Nationally)
• 13.6% of USD students reported drinking ≥10 days of the last 30 days (12.8% Nationally)

Cannabis/Marijuana:

• 25% of USD students reported using cannabis/marijuana within the last 30 days (19% Nationally)

E-Cigarettes:

• 16% of USD students reported using e-cigarettes within the last 30 days (13% Nationally)
  • Significant increase from 3% in 2016 (4.3% Nationally)
Supporting Our Students

- Transition
- Identity Formation and Exploration
- Challenge & Support
Our use of Language

- Approach of curiosity to student’s different identities
- Asking rather than assuming
- Why language matters
Acts of Intolerance and Hate Crimes

An act of intolerance is conduct that adversely and unfairly targets an individual or group on the basis of one or more of the following actual or perceived characteristics: (1) gender or gender identity; (2) race or ethnicity; (3) disability; (4) religion; (5) sexual orientation; (6) nationality; or (7) age.

Some acts of intolerance may rise to the level of a hate crime. Under California law, a hate crime means a criminal act committed, in whole or in part, because of one or more of the above actual or perceived characteristics of the victim(s). Hate crimes are not separate distinct crimes, but rather are traditional offenses motivated by the offender’s bias.

Report all Acts of Intolerance and Hate Crimes to Public Safety.
What does all of this mean for our work?

Thinking of the videos and the information shared today...

• What surprised you or stood out as significant to you?
• What insight does this give you for your particular work with students?
• What are some examples of ways in which you might work differently considering this information?
