

Student Voice Working Group Charge

As we continue to implement the Student Affairs Strategic Plan, we have prioritized several strategies for the 2015-16 academic year. One of these strategies is identifying avenues for students to engage and have their voices included in university affairs. Focusing on this strategy will help us to be more intentional in developing a marketing plan that serves as a mechanism to ensure students know how to engage the university in dialogue around issues of importance to the general student body.

To achieve these goals, the Student Voice Working Group will complete the following items and share their work with the student affairs staff at the SACM meeting scheduled on August 5, 2015.

1. Identify existing mechanisms/structures for channeling student concerns.
2. Identify any needed mechanisms/structures to enhance student's voice on relevant concerns.
3. Develop a marketing plan to inform students of the avenues to express their concerns.

The group will begin its work in the fourth week of June 2015 and conclude after implementation in Fall 2015.
